About the Wyoming County Economic Development Authority

The Wyoming County Economic Development Authority (WCEDA) has been serving Wyoming and the surrounding counties' business needs for over a decade. **The WCEDA has lent over \$9 million to our West Virginia neighbors.**

During the economic slowdown and resulting credit crunch, the WCEDA recognized a need to fill the lending gap throughout West Virginia. Without access to lower cost capital even successful businesses are at risk. So, the WCEDA has expanded their lending programs to include all West Virginia businesses.

Other Services Available through the WCEDA and our Partners

- Free business counseling and planning assistance
- Workforce training assistance
- Small Business Fund, Revolving Loan Program, and Micro-Loan Program
- Larger loans through partnerships with banks and other lending institutions
